

7000-DGK

Laser Guided Wire Raceway Drill Fixture Kits

SDC's 7000-DGK laser guided wire raceway drill fixture kits enable wire raceway preparation through particle filled and solid wood doors. The door core wire raceway permits the installation and wiring of electrified locksets, exit devices and electric hinges.

The laser guided wire raceway drill fixture kit is easy to use without previous experience. The kit allows for drilling from the hinge side without removing the door from the frame.

MODELS

7000-DGK Wire Raceway Drill Fixture Kit
