SDC's Electra™ Mod Locksets ensure that the door stays latched even when unlocked, maintaining fire door integrity. The Electra™ Mod locksets comply with all national building and fire life safety code requirements for use on fire rated doors, including high-rise stairwell and elevator lobby doors where the use of electric strikes and magnetic locks is prohibited.

FEATURES

- Outside lever normally locked, turning inside lever provides uninhibited egress
- Request-to-exit output optional with all locksets
- Dual Voltage 12 and 24VDC
- Choice of failsafe or failsecure operating mode
