Exit Check® - Delayed Egress All-In-One Device

Distributor Discount Code **XK**

The Exit Check® All-In-One Device integrates our premium Spectra™ bar with SDCs innovative delayed egress electronics. When unauthorized egress is innitiated by depressing the push pad of the S6000-101, an audible alarm will sound and an ir-reversible delay period of 15 seconds will begin. After the delay period has expired, the device unlocks, permitting egress until the device is reset. In a life safety emergencty, the device will immediatly unlock upon loss of power or when powered by a fire control supervised power supply. **Door contact included for anti tailgate and door prop.**

APPLICATION INCLUDE:

- Restricting the egress of wandering patients for their own safety
- Restricting the egress of commercial center patrons for security application needs
- Controlling pedestrian traffic in transportation facilities, including airport jetways and tarmacs
- Reducing shoplifting and employee theft
