

EA100

MULTI-MODE EXIT ANNUNCIATOR™

The SDC EA100 Exit Annunciator™ is a highly visible **multi-color signal device** that **interfaces with Delayed Egress or standard EMLocks** and can be used as a **wall, ceiling, or frame mount** indicator.

The EA100 is easy to install for **Multi-Use** with **Multi-Brands**.

HOW YOUR CUSTOMER BENEFITS:

- Easy to Install
- Retrofit and New Construction
- Externally Selectable Six Color Mode
- Externally Selectable Solid or Flashing Modes
- Highly Visible
- Optional Illumination Cover for Side Visibility
- Brand Compatibility
- Interfaces with Delayed Egress & EMLocks
- Wall, Ceiling or Frame Mount

WHAT YOU NEED TO KNOW:

The EA100 Exit Annunciator Bar can upgrade all existing SDC Delayed Egress and standard EM-Locks, plus many other manufacturers' electromagnetic locks. This visual annunciator bar is highly visible from all angles due to multiple color LED lights with rolling signals.

It interfaces with Delayed Egress devices for forced entry or unauthorized exit signaling. The built-in sensors will activate a local and/or remote alarm upon attempting forced entry before the door has been compromised. The new clip-on hood option increases the visibility and enables the option of specialized message decals.

Compatible with SDC, Rofu, Schlage, Secolarm, RCI, Dynalock, Securitron and Door King electromagnetic locks.
