

SDC Factory Installed Kits are UL Listed and Field Retrofit Kits are UL Classified
 For use with 3Hr fire rated and non-fire rated mechanical exit devices.
 Only 700mA inrush / 200mA continuous @ 24VDC provides simultaneous latch retraction,
 dogging with pushpad depression unless specified otherwise.

400NU-L2	Two LEDs. Specify lens color. Standard Finish, on narrow plate	50.00

SDCs IP100 Power over Ethernet Capable Electric Latch Retraction Kit enables electric access control and dogging of mechanical exit devices. When energized the motor retracts the exit device latch and pulls the pushpad into the dogged (depressed)* position enabling momentary or sustained push and pull operation of the door. 12VDC @ 700/110 mA
The latch retraction mechanism may be activated by an access control, remote control device or building automation system. The exit device always provides uninhibited egress.

* Except where noted for latch retraction only
