- Compact Design for Commercial & Industrial Applications
- Electric Dogging to Hold the Latch Retracted
- REX Standard for Access Control Compatibility
- Rim and Surface Vertical Rods
- Trim Options Available
- Hollow Metal, Wood and Mineral Core Door Applications

WHAT YOU NEED TO KNOW:

There are many different brands of cost effective commercial exit devices on the market. The vast majority of these devices are strictly mechanical. Today's market demands an **Economical Commercial Exit Device** with **Electric Latch Retraction**. Not only does SDC's **S4000E** Series Electrified Commercial Exit Device satisfy both market needs for a cost-effective exit device with ELR, but the S4000E also comes standard with **Request-to-Exit Monitoring**, enabling access control compatibility.

SDC's S4000E elevates itself as the premier device in the market for a low price without compromising an inch of its superior quality.

The S4000E with **pre-installed** motorized latch retraction and REX makes application as easy as **Install - Power - Done**.
